DETAILED ACTION

Response to Amendment

1. Newly amended claims 19, 23 and 25-32 and newly added claims 33-56 are directed to an invention that is independent or distinct from the invention originally claimed for the following reasons.

The original claims were drawn to a cellulosic polymer suspension and a method of thickening a brine comprising adding said cellulosic polymer suspension to a brine. (Class 507, subclass 112)

The current claims, as amended are drawn to a method of performing a completion or workover operation of an oil or gas well in a formation by introducing/pumping a thickened brine to the formation to alleviate fluid loss. (Class 166, subclass 282)

2. Because Applicant has received an action on the merits for the originally presented invention, this invention has been constructively elected by original presentation for prosecution on the merits. Therefore, all the pending claims have been withdrawn from consideration as being directed to a non-elected invention. See 37 CFR 1.142(b) and MPEP § 821.03.

3. Accordingly, the reply received on June 11, 2007 to the outstanding Office Action of March 9, 2007 is not fully responsive to the prior Office Action because of the reasons stated above regarding all the pending claims now drawn to a nonelected

invention. See 37 CFR 1.111. Since the above-mentioned reply appears to be *bona fide*, applicant is given **ONE (1) MONTH or THIRTY (30) DAYS** from the mailing date of this notice, whichever is longer, within which to supply the omission or correction in order to avoid abandonment. EXTENSIONS OF THIS TIME PERIOD MAY BE GRANTED UNDER 37 CFR 1.136(a).
